Let's talk about *behaviour*...

Behaviour at Bygrove is *excellent*. School staff, pupils and parents are clear about the high standard of behaviour expected of pupils at Bygrove. Pupils work with their class teachers at the beginning of each school year to establish a rights respecting class charter that is displayed in each classroom.

Staff members encourage excellent behaviour in a range of ways & children follow the *Magnificent Seven*:

We use the *zones of regulation* to help the children to manage their feelings & emotions.

We believe that relationships are the foundation of cooperation and respect. The purpose of our behaviour policy is to help staff to maintain positive relationships with pupils and foster a sense of community in which learning can take place.

We use *restorative conversations* to maintain strong relationships; healing harms and coming together as a community following conflict.

If you would like to find out more about our behaviour policy, restorative approaches or zones of regulation, please have a look on our website or speak to a member of the team.

Year 5

This term, Year 5 are learning about climate change and the impact that ocean littering can have on marine life.

After exploring different ways in which we can start to make positive change, we decided to use our recycling for something positive. We have made fish from recycled bottles which have been displayed in school to raise awareness of the issue. The children enjoyed designing and creating their unique finished pieces and have been inspired to spread the word about the issue.
