

**Year Group 2**  
Summer

**Knowledge Organiser:** Science - Animals including humans  
**Theme:** Globetrotters

### Key information:

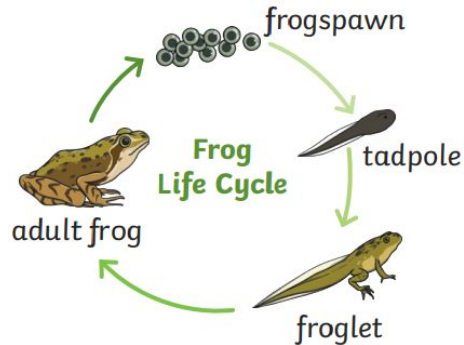

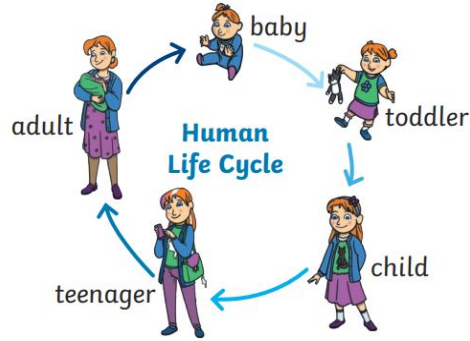

To know animals have offspring which grow into adults

### What have I learnt already:

You know what animals and humans need to survive (water, food and air)

### Key knowledge that will be learnt

All young animals change as they go through the different stages of their life cycle and grow into adults.

### Key Vocabulary:

adult	A fully grown animal or plant
develop	To grow bigger and stronger
Life cycle	The changes living things go through to become an adult
offspring	The child of an animal
young	Offspring that has not reached adulthood
live young	Offspring that has not hatched from an egg
