

Reception

Me Growing Up

Read your book every day to your parent/carer and have a bedtime story every night!

Maths

1. Make double paint pictures by folding a piece of paper in half, painting dots on one half and folding it again.
2. Share some sweets between you and your toy. Remember to share them equally!
3. Compare how heavy different items are by placing them in your hand. Which is the heaviest and which is the lightest?

English

1. Write a list of the things you'd like to do during your holiday.
2. Practise reading and writing your high frequency words. Can you put them in a sentence?
<http://www.familylearning.org.uk/images/hfwordsrec.pdf>
3. Be a phonics detective and spot your digraphs in the world around you: street signs, in shops and on posters/adverts.

Communication and Language

Talk to your family about all the things they can do now that they couldn't do when they were 5 years old. What would you like to learn to do?

Physical Development

Take your family on a nature treasure hunt, can you find: a flower, a tree, a bird, a bee, a butterfly, a duck and a river.

Wellbeing

Next year, you are moving into Year 1! What are you most excited about? Do you have any worries; if so, what are they? Do you have anything you want to get better at? Discuss with a parent/carer.

Being Expressive

Listen to this special music programme that includes a song, movement and a story all about being in a music band!

<https://www.bbc.co.uk/teach/school-radio/eyfs-playtime-music-band/zrcq92p>

Choose one of these options to do over the weekend during the summer term and share it with your teacher. You could take it to school or email a video/picture.

Arts and Design

Create a butterfly painting! Fold a paper sheet in half. Use different colours to paint wings on one half of the paper. Before it dries, fold the paper together & press. Open it out again to create your butterfly.

People, Culture and Communities

Ask your family to share some photos of when they were younger. Can they tell you a story about when they were at school? What is different now?

Technology

Use a parent's mobile device to take a picture of a technological object in your home! Ask your parents to email the picture to your teacher?

The Natural World

What do 'float' and 'sink' mean? Collect some objects. Which do you think will float or sink? Put them in water and see if you were right. Find 5 things that float, and 5 that sink. Why do they sink/float?
